“ I am so sad to hear about Portia. She was a woman of faith and integrity. She helped and taught so many along the way. She was one in a million that is for sure. She told it as it was and would always speak her truth. She shared so much about her family. I felt like I knew them when I went to her funeral today. I pray that her family will have peace and comfort in knowing she is at peace.
Thank you Portia for all you taught me. Thank you for all you did for students and their families and most of all Thank you God for the life of Portia McClain.

God bless,
Stephanie Johnston

“ My most sincere condolences to the family during this time of great sadness. Portia was a wonderful person with a fun sense of humor, not to mention all of her experience and knowledge. I am grateful to have met her when she worked as a guest teacher in the school where I work, and I look forward to reading her book.

“ Ms. Portia McClain was a force. She was one of the most effective educators that I have ever met. She was a storyteller, a motivator, an advocate, a champion and a voice for those who were not able to speak up. She would have your back and she would let you know if you were not right. I loved watching her work with students because they knew she had them and she also held them to the highest standards.

I had the honor of working beside her years ago and she taught me more about my/our history than I learned in my classes growing up. I lost touch with her when she moved on but I have never forgotten her and always planned that I would reconnect with her.

She truly made an impact on so many people and the world is a better place because of her. I look forward to reading her book. She has given us a gift.
