“ *I will forever thank you for helping me solve the mystery of finding out who my father is/was. You took that Ancestry DNA test without any hesitation. Once the results came back it showed that we are 1st cousins. I think you were more excited than I was to find that out. From that day on all I heard from you was "my big 1st cousin", "I wish a m----- f---would". I'm sorry we didn't get the chance to meet in person, and I will miss talking to you on the phone. Hey if you see my dad, be sure and tell him about me!! Love you forever, Rest easy little cousin, your big 1st cousin Roena*
