“ You was my brother..all you wanted was to be around me and snowball and run it up. We had plans and if knew that I would never get to see you again id would have never left the house that morning or try harder to get back to you right away. I know in my heart that you didnt do wat they are trying to say you did and so I won't even reapeat it.. im truley blessed to have had the honor of being in your presence and of being considered a brother and a friend. Never violate the OATH...I LOVE YOU
