Endre John Thorkelson

Though we may be separated, remember love and friendship are unending connections

Born in St. Louis Park, MN, Methodist Hospital, June 9, 2000. Endre grew up in a family filled with laughter, joy, and love. Knowing Endre is a warm and welcoming experience. He always treated all with kindness and respect. Friends will share that with Endre's sense of adventure any occasion was never dull, even when just hanging.

Family was at the center of Endre's life. "Sugs" never missed the opportunity to tell his Mom he loved her and truly cared about checking in with her to find out how her day was going, and the same with his Dad. If you know Steve, it is easy to see how Endre followed in his footsteps, being welcoming and inclusive, caring, always there for a friend, and up for some fun. Endre is a true reflection of the best of both Becky and Steve.

Endre attended Sunset Hill Elementary, East Middle School, and graduated from Wayzata High School in 2018. In High School, Endre participated in choir, Lacrosse, formed many enduring friendships, and often inspired mischievous adventures. He also performed with Angelica Cantanti Youth

Choir from 2017 to 2018. Endre's music lives on in our hearts.

After High School, Endre found his passion, Architecture, and pursued his Bachelor of Architecture Degree from Dunwoody College of Technology. He was in his senior year of a 5-year degree program, a two-year Associates degree, and a three-year Bachelor of Architecture degree. Endre's interest in artistic expression was present from an early age, and his talent, interests, skills, and abilities were truly recognizable in his college projects.

Endre's adventures included bodybuilding, boating, fishing, carp shooting, swimming, snowmobiling, climbing, exploring unique places, gaming, airsoft battles, wrestling, driving the Jeep, driving oops no, working on the Mustang, camping, and so many more pursuits he explored throughout his life. Ask his friends.

“ I did not know Endre personally... I was one of the people who pulled over to try to help in response to the accident. I wish there was more I could have done. I've been thinking about his family since that day. If there are any words of comfort I could offer the family, it's that he wasn't alone immediately after the accident and several bystanders on the highway stopped to act. He sounds like he was a very loved young man. My condolences to his friends and family during this tragic time.

“ *Thoughts and prayers are with the family of Endre at this most difficult time. I was shocked to find out that there was another Endre Thorkelson as that was my fathers name (Burnett's brother). My heartfelt sympathy goes out to the entire Thorkelson family on this tragic loss. - Laurie Thorkelson*

“ I am a co-worker of Endre, and though I didn't know him for a long time, he worked on a ton of projects for me. One of the smartest and most talented designers here. He had a heart of gold and was the kind of co-worker who would go the extra mile to help his team, even if it meant that he took on more stress and work. He worked on many amazing architecture/construction projects during his time at MG McGrath and he is deeply missed here.

For those of you who don't know, in the construction industry, it is a rite of passage for the members of a project team to sign their name on the final piece of work done by that trade. It's a long-standing tradition for artists and craftsmen alike to sign their work. These signatures represent not only the completion of the project, but also the pride, skill, and dedication of the people who made the project a beautiful reality.

If you ever find yourself in Colorado Springs, stop by the US Olympic and Paralympic Museum. On the back of one of those silver diamond metal façade panels is Endre's signature; forever a permanent part of the building marking the incredible work he did and the masterpieces, like this museum, that he helped create.
