“ Met Robb early in my 20's and I'm in my 50's now to give you an idea of how long I've known him. I thought hard about a specific memory that I can always recall involving Robb and I just couldn't. There were many, Just going over to his house and spending time with him and his Family is what I'll remember most. Be it: a Vikings game on TV, a fire in the backyard, or dinner. The time I was able to spend with Robb and his Family is what I'll remember most. He will be missed greatly.
